

Medication Management for Hospitals and Health Systems

Optimize the medication journey from prescribing to adherence.

Fragmented data and diverse systems complicate medication management, affecting workflows, readmissions, and the cost of care. Hospitals and health systems rely on DrFirst for intelligent solutions that fill data gaps and optimize the medication journey from prescribing to adherence.

Streamline Medication Workflows From End to End

Leverage the nation's largest medication network to deliver the right information at the right time.

- **Comprehensive medication history:** Gain visibility into 12 months of patient medication history to inform decision-making at the point of care.
- **Price transparency:** Give prescribers access to up-to-date patient benefit information so patients avoid sticker shock at the pharmacy.

Enhance Clinician Efficiency

Streamline processes and care coordination with workflow optimization that reduces clinician burnout and improves patient outcomes.

- **Customizable workflows:** Develop automated workflows that reduce clicks and keystrokes for providers.
- **Fewer data gaps:** AI safely fills in missing prescription instruction data to simplify medication reconciliation and reduce manual entry errors.

Achieve Operational Excellence

Our solutions expand your capabilities and improve operational efficiency.

- **Medication reconciliation:** Improve the speed and accuracy of the medication reconciliation process.
- **Patient adherence:** Empower patients to stay on their medication therapies with personalized education and cost-saving resources.
- **Population health:** Analyze prescription fill data to identify patients who need intervention to avoid readmissions.
- **Seamless coordination:** Enhance information-sharing across healthcare teams for better patient outcomes.

Elevate Your Standard of Care With Continuous Innovation

Our team of industry experts is committed to developing cutting-edge technology, ensuring that you benefit from the latest advancements in healthcare technology to support the current and future needs of your organization.

Partner with us to experience the impact of intelligent medication management. We collaborate with you to develop solutions that enhance the medication management cycle, refine your workflows, and elevate your standard of care.
