

Real-Time Prescription Benefits Beyond Surescripts

Clinicians Can Now Access 46% More Real-Time Prescription Benefits

In addition to Surescripts sources that cover CVS and Express Scripts, DrFirst's myBenefitCheckSM can now provide **real-time** prescription benefit information **directly within the EMR prescribing workflow** from:

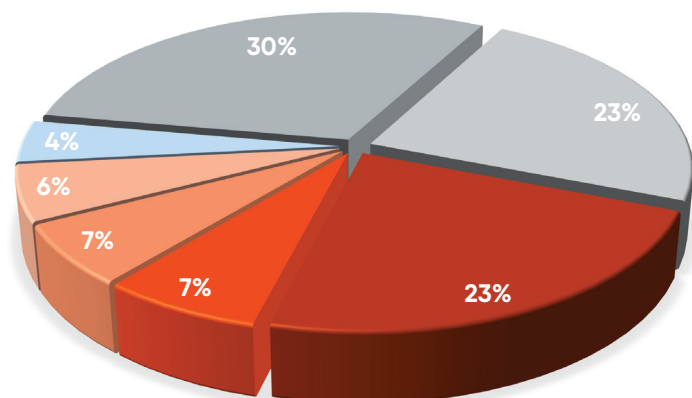

- UnitedHealthcare
- Humana
- DST-Cigna
- MedImpact
- Prime Therapeutics

These sources represent access to an additional **46% of US insured lives** and will help doctors identify **the most clinically appropriate therapy**, and **the most affordable cost** to drive medication adherence for more patients—not just those covered by CVS and Express Scripts.

For Epic users, implementing myBenefitCheck is available at **no additional charge** and requires **less than 70 person-hours to activate** into an existing RTPB (Real-Time Prescription Benefits) workflow.

We're excited about this offering and what it means for CMIOs, CIOs, hospital clinicians, doctors, and their patients. Let's talk about how this could benefit your organization.

PBM National Market Share

Surescripts

- CVS Caremark / Aetna¹
- Express Scripts²

DrFirst

- UHC/Optum³
- Humana
- MedImpact
- Prime Therapeutics
- Other/CashPay^{4,5}

¹ Includes pro forma combination of claims processed by Aetna. Excludes double counting of network claims for mail choice filled at CVS retail pharmacies.

² Includes Anthem. In 2019, Anthem claims transitioned to IngenioRx.

³ Includes Cigna. By the end of 2020, Cigna claims will transition to Express Scripts.

⁴ Figure includes some cash pay claims that use a discount card processed by one of the six PBMs shown on the chart.

⁵ Direct connections with PBMs. Both DrFirst and Surescripts may have connections to plans in the Other/Cash Pay category.
